

To commemorate its 15th anniversary, the School of Information Technology, KMUTT, is hosting the 4th International Conference on Advances in Information Technology (IAIT2010). The IAIT2010 aims to provide a forum for researchers, educators, government officers, consultants, private sectors, managers, developers and others in the rapidly growing field of information technology to meet, discuss and exchange ideas on recent advances. The synergy of this gathering will greatly benefit the global IT society. Authors are being invited to submit their original work in the following areas. All submissions will be subjected to at least two blind reviews. Acceptance will be based entirely on quality, relevance and originality.

Objective

The conference is an opportunity for international researchers and industrial practitioners to present their work and achievement in both theoretical and application of information technology and its related fields. It also serves as a venue to foster collaboration among different industrial organizations and academic institutes. All papers submitted to the conference will be peer evaluated by at least two reviewers. Acceptance will be based primarily on originality and contribution.
